WHICH COOPERATION OPPORTUNITIES CAN ERASMUS+ OFFER?

PROPOSAL FOR FUTURE KEY ACTION 2 STRUCTURE

SOMETHING TO THINK ABOUT...

1. If an organisation is interested in participating in transnational project cooperation...

- How should the organisation **prepare** for such a project?
- Where and how should they look for potential **partners**?

SOMETHING TO THINK ABOUT...

2. In your experience...

- What were the main **difficulties** you have encountered when cooperating with partners from other countries?
- How would you propose to overcome them?
- Do you have any **best practice/materials** that help organisations to learn how to work together with other partners?
- How can all this be applied to **Erasmus+ partnerships**?

SOMETHING TO THINK ABOUT...

3. Once a project has produced results...

- How can the results of a partnership project be further **shared** with other potential participating organisations?
- How can these results be **sustainably be used** as a basis for future transnational cooperation projects?

THANK YOU!
